>Most Judges already Legislate from the bench.
They just fucking make shit up and decide/interpret however they want. If they don't like the looks of you one way or another you're going down no matter what constitution says. Had myself handed down heavier penalties while judge was just explaining to mexicans and illegals right in the packed courtroom about how to avoid ICE and deportation with all the fake virtue signalling cukery voice.
Voice which was replaced with resentment and anger as soon as I was standing at the stand and gave him a look he didn't want to see from a knowing other.
Voice turned defensive and I was speedily handed down by the book x3 penalties without much fanfare.
Who came out of it more embarrassed and angry.
Must fix our country so we don't ever have to see that again.

Quick question. To what degree is Indian sovereignty unassailable, and functionally how difficult is it to say 'fuck you, it's ours now?' Andrew Jackson 2.0. Because if this is true, native American rights groups and reservations have engaged in such treason as to lose any right to exist. Especially as they're allowing mystery meat to LARP their way into 'native' status. They can whinge about persecution all they want; they stuff ballot boxes in our election, we'll really restart the persecution.

Hello, for everyone praying I wanted to give you all an update.

For anyone who doesn’t know me. Here is one of my posts archived.

https://archive.is/rJIF0

Yesterday we disarmed the entire nuclear stockpile of the United States, China, and Russia. Because of your prayers instead of catching nukes mid flight we were able to touch down. You have all helped the vibrations of your planet increase tremendously. I will make another thread later tonight when the moderators are sleeping.

Keep praying. It’s the vibrations are higher than usual because of you guys. If it keeps growing we will be able to finish the arrests within 2-4 months. Originally this planet was supposed to transition to the 5th dimension in 4-6 years however because of your prayers it’s speeding up.

“Thank you galactics and Blue avians for closing down the child trafficking operation and arresting those involved.”

Now Injuns control both governments and are 100% backed by CCP/UN
Those Injun votes dont get openly counted, they go to the same interior dept.
The CCP used Injun corporations to fund IDNATIVE2020 and those extra votes stole the election. And now the CCP hacks from the safety of "sovereign" injun lands.
Just like the ccp/pla is doing in canada right now.

All who bought into the communist and lefties lies of the last 70 years in reservations must be thrown into the furnaces, same as anywhere else.
Only combined with active economical and militarized cooperation agreement can there be a chance these people can break free from the previous (((arrangement))) that kept them in 'artificial' squalor.
The number of pureblood natives have actually recovered in north america anyway so it's a matter of economics and social/cultural shift that must come from bottom up.
Hope we have candidates lined up.

Possibly accurate follow up:

https://archive.4plebs.org/pol/thread/252143244/#q252161484

>corrupt tribal members

Unfortunately, anon, those are the only people that outside forces can reasonably do business with. The process is approximately this:

>resources are in the hands of State/Feds

>regulations and public opinion both prevent govt from accessing or otherwise exploiting said resources

>Native corporations are exempt from most environmental regs, govt oversight, and taxation

>State/feds deed the land w/ resources to native corps headed by corrupt leaders

>native corps blunder their way through extraction, leaving all hell in their trail due to the lack of oversight and desire for expediency

>handful of natives line their pockets

>state cut out from tax revenue

>profit goes offshores

Time to employ actual americans on and off the rez, purge out the corrupt political and business types, and revive the economy.

This truly saddens me. I can't blame the injuns for looking out for their own interests, but once you start conspiring against your own nation and selling out to the chinese? All this proves is that with enough power you can stake your own claim and the government wont do shit. Im sure lobbying them helps.

None of this is IMPOSSIBLE to investigate. The Department of Interior might be unwilling, comped, but that doesn't stop us from looking. If they're 'sovereign,' a separate entity unbeholden to our civil police, then it sure is a shame that that makes it technically valid for our DOD, DIA and NSA spooks to look at EVERYTHING they're doing. Which is really easy since they're tiny enclaves contiguous with our physical territory and dependent on our infrastructure, or in neighboring countries that are the first order for intel penetration.

A few large canadian mining corporations teamed up with a large native corporation to supply materials for the CCP funded A2A railroad.
They plan to make billions of that railroad and are willing to do anything they can to keep that railroad contract.
SeaAlaska has Alaska Union ferry workers that are open antifa, and ALL the Alaskan ferries broke down at the same time Canada was being shut down by the same tribes. Now SeAlaska wants to take over the Alaska ferry system too.
The alaskan ANCSA native corporations make billions in resources, tax free and sell product to China.
Now China has the geothermal and hotsprings in alaska too thanks to current alaskan politicians.
Alaska is rogue and is behind the election coup. It moved south after canada's shutdown and now there are hundreds of bad actors involved.
Its doubtful trump wants to do anything since he opened ANWR and the Tongass.
ALL Alaskan archives were recently removed from alaska to hide a fraud that has already stolen hundreds of billions in resources using the same Injun tactics.
Even most "antifa" activity and statue removal, Plymouth rock etc. Were done by angry Injuns getting paid by the CCP.
Now its just too big to fail.
A foreign Injun/ccp government is trying to take the US dept. of the Interior.
Once that happens the US is toast.

Hope this isn't true. They can afford to run at a loss by paying more taxes with money coming in directly from the CCP. It's how they takeover the businesses. I don't think geothermal energy is going to be real big in the future as everything will inevitably be powered by galactic energy even still they are way too invasive. I wouldn't trust them to be doing anything in Alaska let alone messing around with energy systems.

https://www.zerohedge.com/covid-19/top-ranking-catholic-cardinal-says-covid-19-used-advance-godless-and-murderous-agenda

"In early November, an Italian archbishop and Pope Francis foe, Carlo Maria Vigano, launched an attack against those behind pandemic lockdowns across the globe, warning President Trump in a letter of the coming "Great Reset" whose architects are "a global élite that wants to subdue all of humanity, imposing coercive measures with which to drastically limit individual freedoms and those of entire populations."

"The purpose of the Great Reset is the imposition of a health dictatorship aiming at the imposition of liberticidal measures, hidden behind tempting promises of ensuring a universal income and cancelling individual debt," Vigano's letter continues.

Now, roughly six weeks later, one of the most powerful Catholics in the United States, Cardinal Raymond Burke, has kicked it up a notch - slamming "secular forces" who want to "make us slaves to their godless and murderous agenda" in a Saturday homily.
Burke also slammed the US reliance on China, saying "To attain economic gains, we as a nation have permitted ourselves to become dependent upon the Chinese Communist Party, an ideology totally opposed to the Christian foundations upon which families and our nation remain safe and prosper.""

Those Injuns and mining corporations plan to make billions just selling rock for the new CCP railroad.
Bad part is, Trump actually permitted it.

It's your fault for ever voting in the first place. You literally gave away your God-given powers and consented to give them to pedophiles and psychopaths. Why would you ever surrender your sovereignty before God?

The uber rich Alaskan Injun corporations funded it with CCP help.
IDNATIVE2020 allowed canadians, Illegals, mexicans, even cubans to vote on US reservations and border casinos.
Those votes go to the Dept of Interior, which just appointed an Injun conveniently.
The CCP is doing the same thing in canada right now too ie. Hiding on Injun lands and subverting the government.
China/CCP is building the A2A railroad with Injuns, and had to pay injuns to shut down the pipelines an CN train in canada to do it.
China wants the tongass timber, Unga Island, ANWR for the resources-all done with Injun corporations,
So The Injun/CCP partnership created a way using UN "indigenous" laws to steal the election with extra votes.
It was brilliant and evil. But so am I.
